D185W1-8E

Overview

V7's new D185W1-E8 (18.5”/47.7cm) is an environmentally friendly 18.5-inch widescreen monitor that is perfect for home or office with 1366x768 resolution, 1000:1 dynamic contrast ratio, 200cd/m2 brightness, and many customizing settings to fit your needs. The 18.5-inch widescreen sits in a slim black glossy. The widescreen monitor is easily wall mountable. It stands to be the best value when looking for an LED widescreen monitor.

Built-In Controls

A black bezel frames the LED panel, which has a maximum resolution 1366x768 and a 16:10 aspect ratio. On the bottom right of the lower bezel are power, menu and input (select) buttons, as well as a left/right navigation rocker and a light sensor to adjust brightness based on your lighting environment.

VESA Compatible

The V7 18.5-inch Widescreen LED monitor can be mounted on the wall by fitting it with a VESA 75x75 size wall mount to make more space available on your desktop and get the cords out if the way.

Contrast

The contrast ratio is 1000:1, providing life-like pictures, video and gaming on the screen.

Boot Speed

The boot speed of many competitive monitors is slow, but the V7 18.5-inch Widescreen LED Monitor boots up in seconds after touching the power button conveniently located on the bottom right of the bezel.

Response Time

This monitor excels in response time, with a 5ms response time category provides crisp images with no blur for games or other visual graphics.

Specification

V7 Model #	D185W1-8E
